DON-USMC-2018-004015	Request	<p>I am seeking all records related to the USMC's cooperation with commercial film studios during the period 01JAN1947-01JUN1955. I am not interested in records about newsreel shorts or documentary films -- I am only requesting documents related to the USMC providing production assistance to Hollywood feature films during that timeframe. This interest also extends to records concerning feature films that were denied USMC assistance, such as Beachhead (1954). It is my understanding that these records were housed at the LA Public Affairs office as of the early 2000s. The records I am requesting will include (but are not limited to) correspondence between USMC officials and film studios, correspondence between USMC officials regarding films, correspondence between USMC officials and DoD film office officials, internal USMC memoranda regarding both the decisions to provide support to films and the way that this support played out, and draft scripts submitted to USMC officials for review. I am requesting these documents in electronic format, if feasible. These records are to be used exclusively for scholarly purposes -- I am a graduate teaching assistant/Ph.D. student affiliated with the University of North Carolina and can provide verification upon request. DON-USMC-2018-004106	Request	My name is Carol Zhang with McKinsey & Company and my team is working on developing some research on women pilots to shine light on and help alleviate the gender disparity that exists in the airline industry. We are in early stages of our project and are starting by compiling a fact base that captures the gender breakdown at different points along the women pilot pipeline today. To do this, we are hoping to work with military entities to get a clear view of the status quo as the military is a substantial source of airline industry pilots. Specifically, we are looking for data that illustrates the gender split and how it evolves through the Marines pilot journey. Ideally, we could get 3 types of information: 1. Women pilot %s by pilot type/certification types in the active Marines 2. Statistics on women cadets and men cadets as they go through schooling e.g. matriculation, attrition and graduation rates 3. Statistics on where women pilots and male pilots go after the Marines We would be interested in looking at	2/6/2018	3/13/2018	Records Not Reasonably Described

Was there incidents between Richard and this solider previously? Is it common practice for a Commanding office to hold a briefing with the men prior to an official investigation? What was the outcome? Was it documented as it should have been? Were there enemy forces in the area? Why was the safety off ? Shouldn't soldiers keep the safety on unless confronted by an enemy ? DON-USMC-2018-004805	Request	<p>           The post-incident report conducted by military officials on the death of U.S. Navy Lt. James Mazzuchelli, a flight surgeon assigned to Marine Light Attack Helicopter Squadron (HMLA) 267, Marine Aircraft Group 39, stationed at Marine Corps Air Station Camp Pendleton, California. He allegedly died from injuries incurred at approximately 6:10 p.m. on Feb. 21, 2018, when he was struck by a spinning UH-1Y Venom tail rotor blade. He was transported to Scripps La Jolla Medical Facility and was pronounced dead at 5:43 a.m. on Feb. 22, 2018. Typically, these records will take the form of two types of documents. There's a routine Line of Duty Investigation (LODI) conducted by a command following a mortality. It's not withheld from the public under legal privilege because its primary purpose is to determine that Marines and/or sailors perished in the line of duty and thus enable their beneficiaries to receive appropriate compensation. See JAGMAN Investigations Handbook, Naval Justice School, Rev. 03/15 at III-1. Even if a LODI isn't specifically warranted, a Marine unit routinely after a mishap will conduct a Command Investigation (CI) in order to research out, develop, assemble, analyze, and record all available information relative to the incident and promulgate findings of fact, opinions and recommendations in order to improve command management and administration, publish lessons learned to the fleet, and allow for fully informed administrative determinations. Id. A CI is presumptively releasable under FOIA. Id at IV-1 (Remember FOIA is a release statute and it is DoN's policy to release as         </p>	2/26/2018	3/7/2018	No Records

DON-USMC-2018-004910	Request	Pursuant to the Privacy Act, 5 U.S.C &sect; 552a, this references previous request DON-USMC-2017-008812 as the released records were only processed under the FOIA, 5 U.S.C. &sect; 552; therefore this is not an appeal, but a request never fully responded to in the first place. Per &sect; 552a(t)(1) and (2), the request should have been processed under both laws. The HQMC response letter 5720 ARSF-JH dtd Aug 31, 2017 did not address any reason for a denial under the PA even though the letter indicated "a search of the files maintained by JA". Due to the nature of the document, these "files" that were searched are to be inferred that the document is maintained as part of a System of Record (SOR). I would make a PA request for a copy of all files in this SOR but as I have not been able to locate an applicable SOR Notice, I do not know the name of the JA files to make such a PA request for. Therefore, I am doing so now for all records maintained on me in whatever SOR that this document was retrieved from and then release those records and the original JA advisory opinion to me under the PA. DON-USMC-2018-004952	Request	<p>Requester Name: ROBERT WEED Date Submitted: 02/13/2018 Request Status: Submitted Description: I was told to make my FOIA request to the NARA due to the old age of records in which I am requesting. I am seeking records on dates/locations/missions of the USMC 2nd Force Recon Co.FMFLant. from 1957 through 1965, particularly to the Pathfinder Teams within the USMC Force Recon unit. I am under the impression this unit had missions in the SE Asia area and history, though scarce, seems to suggest this unit was in the Cambodia, Laos, Thailand, Vietnam corridor conducting missions whether on their own or in collaboration with the USA CIA during the turmoil in that area. I also understand that later on, whether in one or tow of the areas, a few Pathfinder teams met heavy resistance and were killed in action. This being some 50-60 years later, I am sure this information should now be de-classified and open to be studied and reviewed. I would like the names of those KIA and awards presented to those who survived and those presented to those posthumously since this seems to be long overdue recognition of those who gave their lives in defense of the USA. Basically, I would like as much information as possible on the above unit for my historical research of what was the beginnings of a new era of USA special Forces in the USMC. The information I have also provides that the former USMC Commandant, Paul X. Kelly was the Commander of this unit at one point but I am not</p>	3/1/2018	6/26/2018	No Records

DON-USMC-2018-005784	Request	I am requesting a spreadsheet detailing the number of reportable events of negligent discharges and friendly fire in the Navy and Marines, on- and off-duty from Sept. 11, 2001 until the date this request is fulfilled. In the spreadsheet, I am requesting location and date/time, DOD reportable severity level A-D, identification of whether the event took place in service of Operation Iraqi Freedom or Operation Enduring Freedom, and any narrative included in the report. I would like to receive the information in electronic format. The information I am requesting is released annually on the Naval Safety Center Website, but not compiled in a comprehensive manner. News articles on this issue (included in second page of this letter) are outdated and variously count the number of fatalities from 85 to a sum of 270, a discrepancy of almost 100 lives. The news value of this information rests in the public's right to accurately evaluate the performance of efforts to promote safe weapons handling and safety -- a matter literally of life and death for the nation's troops. We have a right to request the data under DoD directive and for our request to be treated as if it were a FOIA or via an agency-to-agency release. We cite DoD's Principles of Information, DoD Directive (DoDD) 5122.5, which requires that DOD ensure a free flow of news and information to the news media, the general public and the internal audiences of the Department of Defense. Furthermore, DOD Directive 5400.7-R paragraph C5.1.4. stipulates records are permitted to be released to federal agencies that are exempt from release to the public under the FOIA, but handled as agency-to-	3/23/2018	4/3/2018	Improper FOIA Request for Other Reasons

I am specifically interested in finding records related to Phase II of the survey that looked for possible public shelter sites in mines, caves, highway tunnels, and railroad tunnels in Washington and caves in Oregon. These records could include 1960s-era internal memos, manuals, reports, or correspondence with the Department of Defense Office of Civil Defense, the US Army Corps of Engineers (Seattle, Walla Walla, Portland districts), the Washington or Oregon state civil defense departments, county and city civil defense directors, site owners, and private architect-engineers employed to carry out the survey. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. During the early years of the Cold War, the U.S. Navy expended considerable research and development effort on the detection of submarines by nonacoustic means. These efforts have been documented in scores, perhaps hundreds, of originally classified reports which have been largely locked up and forgotten even though now automatically declassified after about a half a century. Not even unclassified titles (of originally classified reports) are available to the public via DTIC. The existence of these documents is now known to very few people and the Navy's corporate memory of this work is rapidly fading. DON-NAVY-2018-006253	Request	I am requesting any and all documents related to the numbers of annual discharges or military separations due to "sexual perversion," "sexual deviance," and related designations (examples include, but are not limited to, cross-dressing, fetishes, inappropriate sexual conduct, gender presentation, mismatch between gender presentation and "biological sex," etc.). I believe that some of the following codes may have been used for this sort of separation: GKL, GLL, GMF, JLL, JMF and 46B [sexual deviate]. To clarify, I am not currently requesting the actual casefiles of people discharged under these categorizations, but, instead, any and all documents showing the numbers of annual discharges for each category, broken down by gender/sex and race/ethnicity. This request need not include separations for homosexuality (e.g., under the policy known informally as Don't Ask, Don't Tell). The time period of interest for all documents is 1946 to 2017. I am also requesting any and all documents, reports, policy statements, memorandum, etc. describing what actions fall under the above categories (that is, "sexual perversion," etc.). I am also requesting any and all documents describing how those categorizations or determinations were/are made by staff during the discharge process and the events leading up to it. The time period of interest for all documents is, as above, 1946 to 2017. Lastly, please note	4/5/2018	4/23/2018	Full Grant

If there is truly merit to the purchase then so be it, and my hope was that by getting this test documentation that I could show it to multiple publications that could further distribute it and show the tax payer that yes, the USMC is making a wise decision, or no, they are making a bad decision. The issue is that despite first hearing from my FOIA case handler on February 20, 2018 the information has still not been delivered. In talking with my case handler they do not know why I have not received my test data, and in their own</p>	4/8/2018	4/9/2018	Closed for Other Reasons; Other; Moot

It is my understanding that the original incident report was filed with the Naval Intelligence Support Center, which may now be the Office of Naval Intelligence, note FOIA (DON-NAVY-2017008224). It was also filed with COMSUBLANT. After the submarine returned to port (Rota, Spain) and was inspected, a significant restriction was placed on it for deep diving until it could get repaired. It was still sea worthy, but was limited in the depth it could dive. Eventually it was removed from the water and placed in dry dock to be repaired, which included having the structural frame repaired. The actual at sea patrol when the incident occurred was while the boat was at sea, June 7 to August 12, 1975 but the patrol will probably be listed as occurring from May 11 to August 15, 1975. That includes all of the time the Gold crew was in command of the boat both at sea and in port. The Blue crew took command of the boat around August 15 and the Gold crew went home. The boat remained in port for the initial 30 days the Blue crew was manning the boat, which was normal procedure. The time frames for the two crews purposely overlap for a few days. That peaked my interest only because I know the physical rigors of that endeavor are beyond strenuous. DON-NAVY-2018-007322	Request	I am doing a biography of the late French Admiral Francois Darlan who was assassinated in Algiers while working with American forces shortly after the successful TORCH landings. There appears to have been British involvement in the case and from papers which the UK has declassified for me, much of the anti-Darlan scheme was wrapped up inside the US-UK joint Deception plan. I have seen the British side of the deception and I have seen the US Army's side of it but I have not seen the US Navy's perspective. In a book by Thaddeus Holt entitled THE DECEIVERS (Scribners, 2004), the author reveals in his bibliography the documents which interest me. Mr. (b) (6) confirms that the US Navy Operational Archives still holds them and that they have been declassified but that I must apply to see them through a FOIA request. DON-NAVY-2018-007896	Request	How many squadrons were involved in Operation Inherent Resolve (OIR) that flew over Syria and Iraq? By any chance could you give me the number of squadrons that flew over Northern Syria, perhaps even flew over Kobani, specifically? What kind of aircraft were they? Can you give me an estimate of the number of combat sorties they made at the time? Can you give me an estimate of the number of sorties of CAS versus interdiction? Can you give me an estimate of the tonnage of bombs dropped over that area? What were the bases that were involved with the campaign, i.e. were any planes launched as far as from Diego Garcia or other areas? Or was it just from UAE, Qatar, Iraq? Who was in charge of that air campaign? I mean structurally, who was in charge, was it CENTCOM? How many days a week would a pilot fly in OIR? How many hours in the air would a pilot fly on average for each sortie? For example, how many hours would a pilot in a F-18 fly over Kobani? I ask because I read one of the B-1 pilots said that he flew 2 to 3 24-hour missions in OIR per week. Can you give me an estimate of the flying time would be from Bagdad, Erbil, the UAE, Qatar, and other places that might have supported squadrons that flew over Kobani? What is the flying time from Incirlik Air Force base? Was it only the USS George H.W. Bush (then replaced by the USS Carl Vinson) who were the aircraft carriers deployed for OIR?	5/23/2018	6/1/2018	Not an Agency Record

The majority of the SSDD describes the rationale for making the source selection, the only potential trade secrets in the document are those describing specific features on a bidders offering. These features can be redacted from the document, while the rationale for the decision remains and is releasable. Exemption (b) (5) does not apply. This exemption applies to internal government records that are deliberative in nature. However, according to the Defense Acquisition University's Source Selection Guide makes clear that the SSDD is intended as a document to be released. A redacted version of the SSDD which removes all proprietary and source selection material can be provided at the debriefing to anyone not authorized to receive the proprietary/protected material (e.g., an unsuccessful offeror). I believe this was a part of the Defense Warning Office's, Advanced Aerospace Weapons Systems application Program. The former head of the program, Luis Elizondo, stated they received "many accounts from the Navy and other services of unusual aerial systems interfering with military weapon platforms and displaying beyond-next-generation capabilities." I request also the identification of the protocols used in order to transmit such reports, events incidents to the AATIP and others who may have been involved. The program was active from 2007 to 2012. I do believe the program however is still active in spite of the official statements. There are many reports in the media and from the public of unknown aerial phenomena for example, which have a well known term whose aerial activities seemly invalidate the law of aerodynamics since the performance far out strips any known conventional airborne aircraft. DON-NAVY-2018-008604	Request	<p>I would like to receive by email Naval Air Development Center Report Report No. NADC-AW-N6304, 20 Jun 1963, "Use of an Airborne Passive Infrared Mapping Set for Submarine Wake Studies" (AD-338356L). This report was originally classified but should now be declassified. I would like it to become available through DTIC as a public technical report to serve as a possible input to histories of infrared imaging technology and nonacoustic detection of submarines. This report was among four that I requested over three years ago but which appears to have been lost in the system. Copies should be available at the Naval Air Warfare Center Aircraft Division library and at DTIC. See the following explanation. On 7 June 2015, I requested copies of 23 NAVAIRDEVCON 35-to-56-year-old originally classified reports by way of the DTIC FOIA Office. On 22 June 2015, this request was acknowledged in a letter [DTIC-R (FOIA 2015-174)] from Mr. Michael Hamilton, the DTIC FOIA Program Manager, who indicated that action had begun in response to my request. The documents were digitized and sent to the NAWCAD FOIA Office for review because NAWCAD is the successor organization to the disestablished NAVAIRDEVCON. FOIA CASE DON-NAVY-2015-008952 was assigned. Subsequently, some of the documents were released to me, some were withheld, and some were dismissed with the words "These documents are not ours and were referred back to DTIC." It is my understanding that the Navy has deployed an acoustic array throughout the lower Chesapeake Bay watershed to collect telemetry data about the presence and distribution of Atlantic sturgeon in the region, in order to better understand the fishâ€™s migratory pathways, behavior, and periods of residency within the watershed. More specifically, I am interested in receiving information concerning the subspecies of sturgeon that have been documented within the Bay watershed, dates when the sturgeon are present within specific waters of the Bay, areas of the Bay the sturgeon are using (and for what purpose â€” e.g., spawning, foraging â€” if known), the length of time the sturgeon remain in any given location, the sturgeonâ€™s seasonal movement patterns, and any information you might have concerning the age distribution of the sturgeon documented within the waters of the Bay, along with any population estimates you may have</p>	6/19/2018		Partial Grant/Partial Denial	Ex. 6

DON-NAVY-2018-008743	Request	I am writing because I have information on case where I found out one of your enlisted soldiers was discharged for a rape accusation. The accuser worked for me and we had a company party minutes leading up to the incident. She had too much to drink and actually sexually harassed 4 of my employees and 2 of there wives that I witnessed. After I left the party I found out one employee and his girlfriend she followed to the car and tried to pull his pants off. At this party she licked one guys stomach up the side and simulated oral sex to there wives amongst other things. After our party ended she met up with friends and the guy she accused and proceeded to have sex with him and I found out she pressed charges on him for rape and tried to sue him for damages. She is currently trying to sue me for damages and for wrongful termination and I found out she has done this twice to previous employers. I am trying to find out her history of employment and list of lawsuits and I don't think this soldiers story was accurately portrayed because no one ever interviewed myself or any of our employees who where there minutes before this incident took place. DON-NAVY-2018-008832	Request	<p>Dear Dr. Watterson: Pursuant to the federal Freedom of Information Act, 5 USC § 552, I am writing to request copies of the data your agency has collected regarding the presence and distribution of Atlantic sturgeon (<i>Acipenser oxyrinchus oxyrinchus</i>) and Shortnose sturgeon (<i>Acipenser brevirostrum</i>) in the James River in particular, and in the Chesapeake Bay region more generally. It is my understanding that the Navy has deployed an acoustic array throughout the lower Chesapeake Bay watershed to collect telemetry data about the presence and distribution of Atlantic sturgeon in the region, in order to better understand the fish's migratory pathways, behavior, and periods of residency within the watershed. More specifically, I am interested in receiving information concerning the subspecies of sturgeon that have been documented within the Bay watershed, dates when the sturgeon are present within specific waters of the Bay, areas of the Bay the sturgeon are using (and for what purpose " e.g., spawning, foraging " if known), the length of time the sturgeon remain in any given location, the sturgeon's seasonal movement patterns, and any information you might have concerning the age distribution of the sturgeon documented within the waters of the Bay, along with any population estimates you may have developed. The time range for the request is from December 2012, when the Navy began collecting this telemetry data, to the present. I am requesting this information for educational purposes, and certify that I will not use the data for any commercial purpose. I therefore respectfully request a waiver of fees you might assess for production of this data, in accordance</p>	6/22/2018

DON-NAVY-2018-009093	Request	I am looking for the reasoning for the denial of one award and the reduction of another award. I would like the reasoning behind this reduction from the Secretary of the Navy. Second is the denial of the Navy and Marine Corps Commendation Medal with Combat "V" for Sgt. Marcelino Avelar for actions in Afghanistan on August 8, 2008. He was recommended for the award on September 3, 2009. The	6/29/2018

I believe that some of the following codes may have been used for this sort of separation: GKL, GLL, GMF, JLL, JMF and 46B [sexual deviate]. To clarify, I am not currently requesting the actual casefiles of people discharged under these categorizations, but, instead, any and all documents showing the numbers of annual discharges for each category, broken down by gender/sex and race/ethnicity. This request need not include separations for homosexuality (e.g., under the policy known informally as Don't Ask, Don't Tell). The time period of interest for all documents is 1946 to 2017. I am also requesting any and all documents, reports, policy statements, memorandum, etc. describing what actions fall under the above categories (that is, "sexual perversion," etc.). I am also requesting any and all documents describing how those categorizations or determinations were/are made by staff during the discharge process and the events leading up to it. DON-USMC-2018-007800	Request	<p>This request seeks a record that was the subject of two previous requests. With this request I am seeking any emails received by LtGen Glenn M. Walters, USMC, directly from BGen James Bierman, USMC, between 28 February 2015 and 31 March 2015. See the attachment, specifically the two left margin arrows on the second page (page 38). The distinction between this request and the two previous requests is that I am seeking electronic records that may exist within HQMC servers that routed and maintained official emails addressed to LtGen Walters. Both of my previous requests were addressed to MCRD San Diego. The responses to the two previous two requests both addressed only records existing locally, interpreted to mean records maintained at or segregated to only MCRD San Diego. The first request was DON-USMC-005888 dated 26 March 2018 seeking "the email sent from "(b) (6)"@usmc.mil" directly to LtGen Glenn M. Walters, USMC, sometime between 1 March 2015 and 30 April 2015 and that contains the words "coin" or "coins" or "Buckovetz" on the subject line or within the text of the message." The response stated that "As a result of this search, no record responsive to your request was located, and there is no recording or other indication that such a record existed locally for that time period." The second request was DON-USMC-007291 dated 7 May 2018 seeking "the email sent from "(b) (6)"@usmc.mil" directly to LtGen Glenn M.</p>	5/21/2018	6/14/2018	No Records

		Dear Coordinator: Under the Freedom of Information Act, 5 U.S.C. subsection 552, I am requesting any and all information, communications and/or records pertaining to USMC work on civilian casualties caused by the Saudi-led coalition' war in Yemen between 2014-present. I am looking for all communications between Maj. Gen. Carl E. Mundy III and Dr. Lawrence "Larry" Lewis, a State Dept. adviser, as well as any records of their interactions. I am also requesting any and all information, communications and/or records pertaining to USMC support for the Saudi-led coalition's war in Yemen. Maj. Gen. Mundy was Commander of the 5th MEB until 2016, and, since 2016 has been U.S. Marine Corps Forces, Special Operations Command (MARSOC). Dr. Lewis was a senior advisor to the Department of State's Assistant Secretary for Democracy, Human Rights, and Labor. Dr. Lewis traveled to Saudi Arabia five times for the State Dept. between October 2015 and September 2016 to assess the damage that a Saudi-led coalition was doing in their air war in Yemen. Dr. Lewis's work for the State Dept. was reported on by me ( <a href="https://www.newyorker.com/magazine/2018/01/22/how-the-us-is-making-the-war-in-yemen-worse">https://www.newyorker.com/magazine/2018/01/22/how-the-us-is-making-the-war-in-yemen-worse</a> ) and other members of the news media. He came up with a system to determine whether International Humanitarian Law had been breached by the Saudi-led coalition in concert with Maj. Gen. Mundy. As a writer at the New Yorker and a member of the news media, I request my fees be waived for this records request. I also request an expedited release of documents because the war in Yemen is continuing with a large loss of life, as well as a rising threat to the US homeland. If

DON-NAVY-2018-009923	Request	Please consider this letter from The San Diego Union-Tribune (â€œU-Tâ€œ) a request under the auspices of the Freedom of Information Act (â€œFOIAâ€œ) for documents that have long been considered public under the statute. The U-T requests copies of the following records, or all records containing the following information, preferably in electronic format to save the Navy copying costs and undue labor: â€¢ The completed investigative report prepared by the Navy following the death of Seaman James Derek Lovelace during training in Coronado, California. Lovelace died during Combat Swimmer Orientation, a test that takes place in the first week of BUD/S training to assess a SEAL candidateâ€™s swimming abilities. Students tread water and perform survival skills, including the removal of a swim mask, uniform and boots. Naval Criminal Investigative Service (â€œNCISâ€œ) informed the U-T that it would release all relevant reports on the matter once the process for determining whether criminal charges would be filed in the case had run its course. Following a similar decision by Navy prosecutors, the U.S. Department of Justice has declined to file charges in the Lovelace case, ending the matter. Be advised that FOIA requires the release of all segregable nonexempt portions of documents. In order to determine my status to access fees, you should know that the Requester is news gathering organization and this request is made as part of a news gathering activity and is not intended for commercial use. DON-NAVY-2018-009968	Appeal	<p>applied in several instances throughout the responsive records I sought.</p> <p>The attached letter (Ziezulewicz FOIA) states that two entire enclosures were withheld due to b6 exemptions. Yet no explanation was given as to why the enclosures in their entirety could be withheld under b6. If certain portions of the enclosures are exempt under b6, please redact those portions and provide the records.</p> <p>Large blocks of the responsive records were blocked out, and often appear to not be entirely pertaining to the information covered under b6.</p> <p>Examples:</p> <p>Page 6 of the responsive record (North Dakota FOIA) features findings of fact points 5 and 7 that appear to be overly redacted. These findings of fact could have names redacted under b6, but I ask that you reconsider whether the full sentences were justifiably redacted under b6.</p> <p>I also contend that the findings of fact on North Dakota FOIA p. 7, (findings 16, 20, 21) were improperly redacted under b6. These are crucial points to the narrative of what happened, and should not be redacted in their entirety.</p>	7/30/2018

DON-NAVY-2018-010108	Request	<p>I request a copy of the US Navy's Philippine Overseas Employment Agreement (POEA) certification that allows the US Navy to direct hire Philippine nationals to work for the U.S. Navy Support Facility Diego Garcia (into positions commonly referred to as OGs). POEA requires all overseas hiring agencies to have a certified agreement with them and the Philippine Overseas Labor Office (POLO). That certification legally allows Filipinos to travel from the Philippines to their overseas work location. That document also allows POEA to issue an Overseas Employment Certificate to the individual employee permitting their lawful exit from the Philippines. The certified agreement should be present in either the Yokosuka civilian personnel office or Commander Navy Region Japan, Atsugi Satellite Office, Human Resources Support Office or within the offices of the Commander, U.S. Navy Support Facility Diego Garcia. To be specific, this is the POEA certification for US Navy hires of Filipinos, not Filipinos hired by US Navy contractors on Diego Garcia. DON-NAVY-2018-010296	Appeal	<p>I respectfully request the Dept. of the Navy overturn the denial of my FOIA request (see supporting document), denied on the basis of Exemption (b)(7)(A) -- that the release of "records or information compiled for law enforcement purposes ... could reasonably be expected to interfere with enforcement proceedings."</p> <p>According to DOJ FOIA guidelines, the denying agency "must be able to point to a specific pending or contemplated law enforcement proceeding" -- no such specification was given. Furthermore, DOJ's guidelines say the requisite two-part test requires "more than the ... pendency of enforcement proceedings for the invocation of Exemption 7(A); the government must also establish that some distinct harm could reasonably be expected to result if the record or information requested were disclosed" -- no such establishment was provided.</p> <p>While it is true that Capt. (b) (6) could still face civilian criminal prosecution, his BOI was an action separate and apart from any civilian proceedings. Furthermore, the BOI found "no basis" to substantiate the alleged misconduct and thus decided to retain him on active duty. According to the DON's SECNAV INSTRUCTION 1920.6C and 10 U.S. Code Â§ 1182 (governing BOIs), "If a board of inquiry determines that the officer has established that he should be retained on active duty, the officer's case is closed" and, therefore, not still pending.</p> <p>I also requested documentation of NJP offered to Capt. DON-NAVY-2018-010363	Request	This is a request under the Freedom of Information Act (5 U.S.C.552): I am a USO volunteer at NAVSTA Great Lakes in Illinois. The USO center is housed in Bldg. 27, 530 Farragut Ave, B, Great Lakes, IL 60088. Recently there has been an issue regarding the possibility of asbestos in Bldg. 27. The Navy has said that NAVFAC, as well as an independent company approved by the EPA, completed a review of the building in May/June, 2018, and the building was declared to have asbestos in several areas, but that it is contained and presents no immediate health risks. When I asked to see the name of the afore-mentioned independent company, I was told I would have to make that request through the FOIA. I learned that I would also have to go through FOIA to obtain records of Bldg. 27 inspections over the last decade. Therefore I am requesting the name of the independent company that reviewed Bldg. 27 in May/June, 2018, and the results of that	8/10/2018

The request, which asked for "Any studies, assessments or other reports of the potential impacts of sea level rise or climate change on any of the four Navy Shipyards" was closed for reason of no records found.</p> <p>However, in an official email response to related questions, a NAVSEA officer wrote to me "The Navy is aware of the subsidence issues in and around NNSY [Norfolk Naval Shipyard] and has conducted studies to understand flooding in and around NNSY."</p> <p>I believe the referred to studies should have been identified as responsive to my request. NNSY is coastal and exposed to worsening flooding over the past 15 years, in part due to rising seas. This link is well established and accepted by NNSY, which is planning several Mil-Con projects in response to worsening flooding caused by rising seas and subsidence. Therefore, any studies of flooding would be related to rising seas because of their inextricable link at the installation.</p> <p>I respectfully request that the studies referred to in the NAVSEA email response quoted above be identified and produced in response to my original request.</p> <p>Please do not hesitate to call me at (b) (6) for clarification or more detail.</p> <p>Thank you,</p>	8/14/2018	11/16/2018	Affirmed on Appeal; Select "Other" Disposition

DON-NAVY-2018-010991	Appeal	<p>I am appealing the response to my request DON-USMC-2018-007800 because I believe that the search was inadequate.</p> <p>BGen James Bierman's statement under oath establishes that he sent an email directly to LtGen Glenn M. Walters. See the two attachments included in my FOIA request.</p> <p>As noted in the sworn statement, the email was a result of my 28 February 2015 letter to LtGen Walters. (See attachment 1 to this appeal) I placed the letter in the U.S. Mail on Saturday, 28 February 2015. (See Attachment 2 to this appeal) Two days later, on Monday morning, I provided a copy of the letter to my superior, the Director, MCCA, MCRD San Diego. He promptly delivered the copy to BGen Bierman's office.</p> <p>My assumption is that BGen Bierman followed the age old wisdom to be quick to let your boss know of a problem, and therefore he sent the email to LtGen Walters within the four weeks following the mailing of the letter. In the absence of any explanation as to how BGen Bierman's email to LtGen Walters was not discovered during the search by the Marine Corps Cyber Operations Group a troubling question is created: how could that email have been removed from the .mil server or otherwise not</p>	8/28/2018	9/26/2018	Affirmed on Appeal

The exemptions permit an agency to withhold records only when the public's interest in disclosure is outbalanced by an individual's privacy interest. <i>Kimberlin v. Dep't of Justice</i>, 139 F.3d 944, 948 (D.C. Cir. 1998). The public interest at stake is opening "agency action to the light of public scrutiny" so that citizens can "be informed about what their government is up to." <i>Dep't of Justice v. Reporters Committee for Freedom of the Press</i>, 489 U.S. 749 (1989). Had the agency weighed these interests correctly, it would have determined that the records should be released in full. On June 25, 2018, the Department of the Navy indicated that "third persons' names, email addresses, and telephone numbers have been withheld pursuant to FOIA exemption (b)(6)." However, within the responsive emails received, a government official, whose email has been redacted under exemption says, "I'll give him something. (there's only nerve gas above the waterline)." Newsweek has been unable to determine what this reference means within the context of the information Newsweek was seeking. Due to the content of this email, we believe the (b)(6) exemption should be lifted as "[an] urgency to inform the public about an actual or alleged Federal Government activity, if made by a person who is primarily engaged in disseminating information." 28 CFR 16.5(d)(1)(ii); there exists "widespread and exceptional media interest in which there exists possible questions about the government's integrity which affects public confidence." 28 CFR 16.5(d)(1)(ii). DON-NAVY-2018-011295	Appeal	I appeal the integrity of the search, the agency erred because it failed to conduct a cross-reference search for responsive documents. The public interest at stake is opening "agency action to the light of public scrutiny" so that citizens can "be informed about what their government is up to." Dept. of Justice v. Reporters Committee for Freedom of the Press, 489 U.S. 749 (1989). Considering the FOIA request involves documents that are apart of "widespread and exceptional media interest in which there exists possible questions about the government's integrity which affects public confidence." 28 CFR 16.5(d)(1)(ii). Had the agency conducted a cross-reference search for responsive documents, perhaps the "urgency to inform the public about an actual or alleged Federal Government activity, if made by a person who is primarily engaged in disseminating information." 28 CFR 16.5(d)(1)(ii), would not have been delayed. Additionally, the agency erred because it failed to task a third-party to conduct an independent search for responsive documents. Instead, the	9/6/2018

DON-USMC-2018-011052	Appeal	<p>This is an appeal under the Freedom of Information Act, 5 U.S.C. Â§ 552.</p> <p>I am challenging the command's use of law enforcement exemptions to withhold these records.</p> <p>I believe the application of these exemptions is invalid on the grounds that there is no ongoing investigation with which the release of documents might interfere.</p> <p>1. Public comments from USFJ in December 2017 stated no helicopter parts were missing from MCAS Futenma; this suggests the investigation into the matter has already been completed.</p> <p>2. A FOIA request to NCIS on this matter - DON-NAVY-2018-010575 “ revealed no ongoing investigation by NCIS or any reports on the incident in either the CLEOC or K-Net databases as of 22 August 2018.</p> <p>3. On 7 February 2018, I received a response to a previous FOIA request on this matter - DON-USMC-2018-003406 “ in which I was directed to file a new request “œin 4 months“œ. However after following this guidance, no records have been released. This request has been the subject of repeated attempts by USMC to avoid processing “ for example on July 5th Office of the Judge Advocate General granted my appeal for delays in processing ( Appeal 008191 ) but USMC still avoided processing it.</p> <p>The incident in question has been the focus of intense media interest in Japan and so I believe the USMC is attempting to avoid releasing documents related to the matter on solely political grounds - and the law enforcement exemptions are invalid,</p> <p>I certify that the information contained in this appeal is true and</p>	8/30/2018
